METISSE HAMMER MK3

a new icon is born

AS SEEN IN THE 'MAN FROM U.N.C.L.E' MOVIE

When the directors of the Man From Uncle wanted an iconic motorcycle for Kuryakin there was only one choice

–

The Metisse Mk3 Scrambler.

Based upon the race-winning pedigree Mk3 Metisse Scrambler, the Metisse Hammer motorcycle has been adapted to the film requirements. The iconic looks of the Mk3 Metisse are further enhanced by subtle design changes: to the front headlight and heatshields on the twin exhausts for instance.

Armie Hammer rode the Metisse Hammer during filming and was so impressed he now owns and rides one in the States. As with the Steve McQueen Desert racer, the Metisse Hammer will be produced in a limited batch of 300, with each motorcycle guaranteed for its exclusivity with a prized Certificate of Authentication.
